

LUMISIGHT

Event Application

The LumiSight Event application makes it easy for you to host events and verify your guests' COVID-19 vaccinations. It simplifies event and screening management and makes it possible to welcome back audiences to your performances and gatherings.

Quick Registration

Attendees easily load their vaccination cards and bring their QR codes to your event.

Easy Screening

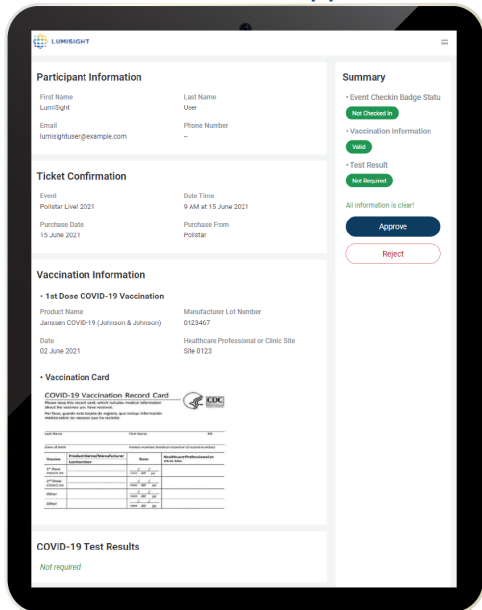

Scan your attendees' QR codes to quickly verify or ask them screening questions.

Controlled Access

Use admin dashboards to review data and create role-based access permissions.
